Thanks Kent; one comment – please add some labeling to the transect plots to clarify which way it is oriented (like east side/west side).

Earl/Paul – please let me know if you have any other questions/comments on this.

Thanks,

Subject: draft field report

Hi Gary,

I believe Jason is caught up with all this high water again. Anyhow, last week we worked together on finalizing the draft field report. I had made some additional changes to the report and I haven't heard back from him. Anyhow, I wanted to get this data to you, so I am going ahead and sending this out to you, but we might make a few additional changes when Jason gets back in. The most important part, the data is available for the COE on the ftp site. The ftp site is listed in the report and I have uploaded the data to the site.

Please let me know if you have any questions.

Thanks.

Kent Becher
